The Explanation.

The Prospect represents the most remarkable Buildings next the Thames, with the streets leading into the City, as they appear in your Passage Eastward and Westward from Pauls wharf by water.

The Mass of Building etc. were taken from such Places in Lambeth & South-work as might best agree with the Front, and give a present Prospect of the part in View not taking the whole from one Station Because in the Length of our City a great part would be so reduced that the Beauty would be lost.

The Map describes the Streets, Lanes, Courts, Yards and Alleys with ye Buildings between each at 300 Foot in one Inch.

The Streets, Lanes, Alleys and Yards are white, the Gardens peculiar Yards and Fields Speckt thus:

Part of ye Eminent Buildings are raised the rest double hatched to keep ye truth of ye Groundplott, which being a Survey we chose to preserve though ye other would have been more beautifull.

Having room on their own ground we have raised Berkley, Albemarle & other great Houses, and given them their proper Front, desiring ye beholder to suppose himself in the Street before the house, and begging pardon of ye Skillfull for not observing the Rules of Perspective to make them stand upright in the Map. And had we ye opportunity of representing the Eminent Buildings within the City it would evidently appear that for spatious Streets delicate Stately and uniforme buildings our Shopkeepers may Vye with any City in Europe. But ye Companies Halls, Noblemen, Gentlemens & Merchants houses (which to give way to Shops appear not in the Streets) are such magnificent Pallaces & so numerous that wise & observing Travalers have justly admired them. Nay the very Taverns and houses of Entertainment cannot much short of being fit dwellings for Princes.

This Famous City is 7 Miles & ½ from Blackwall in ye East to ye end of Pettie France in the West; and from St Georgs Fields in ye South to Shoreditch Church in ye North is 2 Mile & a ¼: in Circuit 19 Miles and ½.
