A NEW

Physical, Historical, & Political Map, of

ENGLAND and WALES,

From actual Surveys, & Astronomical Observations

of the ROYAL SOCIETY,

Exhibiting the natural state of its Surface, by describing the great Range of

MOUNTAINS, HILLS, and HIGH LANDS,

which seperate the Heads of the Rivers, & point out their Course from its Spring to the Ocean;

All the NOBLEMENS and GENTLEMENS Seats,

Cities, Boroughs, Market-Towns, Rectories, Vicarages, Chapels, Vallies, Rivers, Canals,

Bathing Places, Parks, Forests, Marshes, Turnpike, & Principal Cross Roads,

with the distances from Town to Town, according to the

Mile Stones, & other exact Mensurations.

By JOHN ANDREWS, Geographer *and* Map-seller, *No.on facing Air Street, Piccadilly.*

1786.

ADVERTISEMENT

As there is no General Map of England & Wales of Sciential service to Military information, in order to render this the more serviceable, the Author has endeavour'd by representing the great ranges of Mountains, Hills, & High Lands, which bound the Rivers to point out the extent of the Vallies & Low Lands by Number, which, as it will give a View of the Grounds proper for Encampments, he flatters himself will not prove unacceptable to Gentlemen of the Army.
