REMARK

The Stones on the Chisle Bank lessen in Size gradually to the Westward from Portland; At Chisle & the Passage they are about the Size of an Egg. opposite Fleet & Langston, they are much smaller; at Becksington they are Scarcely bigger than Pease, & between Swyre & Burton-cliffe where the Bank ends it is entirely a fine clear Sand. Underneath the Pebbles is a firm Black Clay, which appears when a Strong S.E. Wind blows. the Bank is then swept (from one End to the other) of the Stones, and remains only of Clay till Such time a S.W. Wind blows, when the Sea throws them up & covers the Bank again. This Bank is 16 3/4 Miles in length.

The Hop a Spanish Ship from the Spanish Main Stranded here 3000 l. was saved out of her.
